What is the Medicaid Learning Center?

The Medicaid Learning Center (MLC) is an eLearning portal that provides effective and essential education to fully equip Medicaid professionals today. This unique, study-at-your-own-pace, training program offers Medicaid learning solutions anytime... anywhere. Address your Medicaid training needs with our standard offerings, or work collaboratively with us to build customized modules – either way, experience solutions with the Medicaid Learning Center now.

With the MLC, you take advantage of:

- Convenient web-based learning
- Comprehension training
- Compliance tracking
- Training completion certificates

The Medicaid Basics Module is a program that results in certifying each learner who completes the 25 course work hours with a certificate of basic Medicaid training.

Our MITA offering provides seven hours of MITA specific training, through four Virtual Classroom courses (VCs).

What is the Medicaid Knowledge Center (MKC)?

The unique language of Medicaid, a barrier for anyone entering the Medicaid community – Let the MKC help – Our Medicaid Knowledge Center is the largest online

Medicaid specific reference library, here we house over 2,000 terms and acronyms. The MKC also contains links to important research and reference materials needed by Medicaid professionals today.

Medicaid Training ...

Anytime,
Anywhere.

Why make the move to e-Learning?

What if five of your most valuable Medicaid professionals left in the next three months? Retirement, lured away by the promise of a larger salary elsewhere, or just burn-out from ongoing change – where would you turn to replace that knowledge capital?

Where will you turn to find talented professionals who understand the Medicaid program at large?

The reality we face today is that precious few trained and experienced Medicaid professionals exist to supply the needed demand in our industry.

The MLC offers you a way to begin the needed training and grooming of Medicaid professionals at a pace that works for you. The MLC allows you to control your training schedules, reduce training costs and eliminate associated travel expenses. It provides you with the capability to centralize your training records and track compliance.

Take advantage of the MLC standard offerings; or collaborate with us to design customized online education for your organization.
